INCLEMENT WEATHER

In the event of severe weather conditions we will make every effort to be open on time. We ask for your patience. We understand that you depend on us. Our start time may be delayed. We have several staff living in outlying areas who may not be able to report to work or may be delayed. In this instance the rest of our staff will be operating on emergency status. In a rare instance we may not be able to open due to staff transportation issues or loss of power. Call ahead if you are concerned about our status.

Or

Our modern weather tracking systems have proven to be pretty accurate. In the event of severe weather conditions predicted to happen during the day making travel difficult we ask that you consider planning to leave your work a little earlier so that you can arrive on time to pick up your child.

Bus Transportation for our school-age children is based on decisions made by the school district. Arrival time to and from school may change according to weather conditions.

It is always a wise choice to operate on the side of caution. We cannot open if we cannot provide a safe, healthy environment for your child.
